**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Broadband competition is essential because the current oligopolies don't compete and don't innovate, leaving consumers with poor services at affordable prices.

Broadband is essential to this country's productivity and competitiveness which is essential to this country's economy which is essential to this country's security.

USTelecom is wrong. Continued access to UNE services is key to my carrier's business model.
Listen to Sonic.
